

## MIPS Calculator

### How is your MIPS performance affecting your revenue?

As MIPS performance thresholds continue to increase, clinicians must be smarter about their quality reporting. Enter your Annual Medicare Revenue below to see how your MIPS performance can earn you a positive or negative adjustment on your Medicare reimbursements.

Annual Medicare Part B Revenue

\*Maximum MIPS positive adjustment is 1.8% based on CMS PY 2020 QPP participation documentation. Calculations do not guarantee a positive or negative MIPS adjustment. Actual adjustments are based on overall MIPS composite score, budget neutrality, and peer performance for given reporting year.

### Find out how you can avoid the -9% penalty
